STRATHCONA COUNCIL

Accept Estimate for New Power House Equipment--New Police-man Appointed

Strathcona, Oct. 30--The council met this evening at 8.30 for transaction of business. In the absence of Mr. F. C. Jamieson, town engineer McLean acted as secretary pro tem. Present, the mayor and councillors Douglas, Pollard, Richards, Cowles and Carmichael. Communications were read from the Chicago Wind and Engine Co. re cheque also from Simon & Co., Toronto, J. W. Ray, Regina, Wm. T. Brett, Winnipeg; Oldfield, Gardiner & Co. re town debentures. Applications were read from Messrs. Barber, Daly, Harris, MacEachern, Cochran, Baster, Beaumont, Ryan, Brown and Matthews for the position of night policeman. The town engineer was instructed to make out an estimate for Wind & Engine Co., in accordance with terms of contract.

The secretary read a communication from the Robt. Engine Co. of Amherst, N.S., re piping, boilers, connections, etc., totaling \$1,800. A communication was also read from Willis Chapman, of Toronto, offering his services at \$30 per day and expenses. The estimate of the Robt. Manufacturing Co. was accepted.

A vote by ballot was taken for the choice of a night policeman. Mr. T. G. Ryan was declared elected on the first ballot, duties to commence November 1, 1905.

Mr. Burger addressed the council re balance of money left him for work done for the town. He stated there was a balance of \$252.00 due. Discussion here followed, but no definite action was taken, as Mr. Sutherland, a former partner of Mr. Burger was not present, hence a full settlement could not be made.

The account of Dietz & Main, \$25,16 and the balance of Congdon's account of \$172.00 were ordered to be paid.

The following accounts were referred to the finance committee: Wm. Rhindert, per roll, \$13.00; telegram, \$1; Canada Oil Co., \$10.80; Winnipeg Telegram Printing Co., \$1.75; Potter & McDonald, 75¢; John Waters, \$29.30; Waterloo Engine Co., \$1.15.

The secretary-treasurer was advised to draw a lease securing Mr. Morris' barn for six months at \$15 per month for storing wooden water pipes.

W. H. Kreamer, of the Jackson foundry staff, has just returned to town after an absence of six weeks. He has just recovered from the effects of a serious gun accident. He intends to resume work in the foundry.

R. Turnbull, of town, has just returned, having finished threshing for Mr. Mincho for whom he acted as engineer. He reports a run of about 33 days and a yield of say 45,000 bushels.

VETERAN MISSIONARY HONORED

About 250 of the parishioners of St. Joseph's were present at a farewell gathering given Father Leluc, in Robertson Hall last night. The company indulged in cards until 10 p.m., when an excellent program was ren-

RAILWAY COMPETITION

ASSURED TO ALL ALBERTA

The Grand Trunk Pacific will construct a System of Branch Lines Covering the Entire West Simultaneously with the Construction of the Main Line--System Will be in Operation in 1907

Winnipeg, Oct. 31.--Calgary will be connected by a branch line with the main line of the G.T.P. as soon as the line reaches the junction point.

General Manager Morse made this announcement this morning. The announcement is of the utmost importance to the new provinces. He gave positive assurance that the system would touch all of the important centres of the West.

Branches will be built to Brandon, Regina, Calgary, Prince Albert and Yorkton simultaneously with the construction of the main line as soon as the latter reaches the points of respective junction. As a result the company will have an effective system in operation to compete for all trade coming and outgoing from the time the line is opened. Work will be underway next year and will be completed in 1907. The line will not stop at Calgary but will be extended south into the ranching and mining country.

NEW IMMIGRATION HALL
Tenders are called for the erection of a new immigration hall in this city. The hall will be built on the C. N. R. right of way, north of the track opposite the new station and will be three storeys and basement, and be fitted up in the latest approved style, including bath rooms and reading rooms. The foundation will be concrete, surrounded from the ground to the height of the first floor by cement blocks. The building is to be of British Columbia pine, will be well lighted and ventilated and every comfort provided for the incoming settlers.

HALLY TO-NIGHT
There will be a rally in the rooms of the Young Liberal Club at 8 o'clock this evening. All Liberals and supporters of Mr. Cross are invited to attend. Speeches will be delivered on the questions of the day.

HOSPITAL DONATIONS
Tomorrow, Nov. 1st, will be donation day at the public hospital. Donations of all kinds will be received at the hospital. For the convenience of those wishing to make donations arrangements have been made to receive the same at Williamson Brothers' store at the corner of Jasper and Fourth street, and at the office of the Great West Land Co., Limited, up to five o'clock. Cash donations should be given either to the lady superintendent at the hospital or to the secretary at the office of the Great West Land Co., Limited.

C. W. Sutter, immigration agent and Mr. Frank W. Ross, spent a couple of days at Lac La Nonne, hunting and fishing with S. C. Ward and Mr. Hamlin.

RELIGIOUS PEACE OR RELIGIOUS WAR

The liberal policy was enunciated in the House of Commons by the Hon. W. S. Fielding, as follows:

"We have had great progress in the North-West, but after all it is but the beginning of better and greater things."

We bear the tread of pioneers, Of nations yet to be; The first low wash of waves when soon Shall roll a human sea.

"Let it be our happy privilege in this parliament to do all that we can to continue that picture of the condition of Canada. Let us be careful, lest by a mistaken step today, another picture may have to be presented, showing our people divided along religious lines, our country riven and distracted by religious strife. Canada then would no longer present that happy picture; the tide of immigration would be turned back, capital would take alarm, business men would lose confidence, we would no longer be able to enjoy the prosperity we are now enjoying, nor could we reasonably hope for that magnificent future which today opens to our vision. Let us realize the danger of religious strife in this matter. Let us try to avoid it. Let us have peace in Canada if possible."

This was the policy the Calgary Herald supported no later than the 16th of March last. Compare its utterance on that day with the leader of the party's statement of his policy (which is now the Herald's policy) at Strathcona, on the 19th of September, just six months later:

THE HERALD,

The second reading of the Autonomy Bill proceeds on Tuesday. The West has won out, the educational clause being so framed as to continue the existing class of schools in the Territories. No references will be made to the privy council.

The news is very satisfactory reading to the people of the West. It means that moderation and tolerance have triumphed, and that in all probability a long and bitter agitation which would have set neighbor against neighbor, has been averted. The Herald has no fault to find with Sir Wilfrid Laurier for according to the terms of the federal election, he feared by an uncompromising manner he might precipitate a dangerous crisis. That he chose a commonsense rather than a heroic course is a matter of congratulation among all good citizens, irrespective of party."

R. BENNETT

This is what I leave with you, if you will that the constitution provides for co-equal and co-extensive powers in all the provinces, that has been denied us; that you and I shall work out what is best for us in the future. I trust you have arrived at somewhat the same conclusion as I have, and all Liberals, not to conservative alone, but to men who have fought for Provincial rights in the days gone by, by the memory of the great men that have done so much for the development of law and order and liberty in the land—great leaders of the Liberal party, will ask of you your active sympathy and your support in this great campaign to the end that the rights of the province may be vouchsafed. What will it be with posterity? Have you done duty to your country? Will it be by your age? Have you done your duty so you may say to your children as a man said to me the other day down in Cardston: "I want to think when my boy says: 'Father, did you approve of this thing?' I can say to him, 'I fought for it.' Then when my boy has done his duty as he saw it, when a man has done the best he can in his day, posterity can say: "These men saw their duty and did it." But whether they accomplished their purpose or not strove for it, they at least strove for great cause, strove to advance the interests of their common country, so that those who came after found it no harder to live than did their fathers.

VEGREVILLE

[Correspondence!]

Threshing is nearly all done in this settlement. The Dennis Bros. are doing good work with their new outfit. Mr. Still has sold his threshing outfit to some Russians. The grain is turning out extremely well.

George Robertson has moved his building to the new town site.

One of our merchants Eugene Poulin and wife, are rejoicing over the arrival of a fine boy, Dr. Goodwin and wife, Mr. and Mrs. Alfred Abbott and wife of a 10 lb. boy, J. K. Johnson and wife of a boy.

Our policeman, Pete Moore has left us and another comes in his place.

Mr. and Mrs. Hawthorn arrived from British Columbia last week with their daughter Laura, who is in poor health.

There will be a new building erected in the near future on the new town site—the Methodist denomination. It will be a good building.

Rev. Mr. Buchanan was out two weeks ago and got quite a large subscription for the work.

Mr. Clement and son, are going to put up new buildings. The wedding bells chimed again in Edmonton on Thursday evening, when Mr. Hubert and Miss Mamie St. Peters were united in the holy bonds of matrimony. They have the best wishes of all.

LA VOY

Joe Lavor of Lavor was in town Friday and Saturday on private business and partly to make arrangements for some business men to begin business in Lavor. Before he left he made arrangements for material for the foundation of a hotel there. Also he has completed a deal with some thoroughly qualified merchants to start a general store.

The soil in the vicinity is said to be of excellent quality, the town site is picturesquely situated and it is expected both town and district will advance rapidly.

Coroner's Jury Criticises Custom of
Allowing Children to run the
Streets at Night

Sintaluta, Oct. 31.—The extraordinary and unexplained death of young Stanley Ross at the hands of a Chinese laundryman, who attempted suicide thereafter, has been followed by a curious find of the coroner's jury, which blames Sintaluta parents for allowing children on the streets after dark. They find that Stanley Ross came to his death from a wound in the head caused by a heavy sharp instrument in the hands of some person believed to be Lio Bing, they also add, "We view with alarm the custom of citizens of Sintaluta allowing their children to frequent places where they have no business to transact, as also their being on streets after dark without any responsible person in charge of them. We believe that parents and public officials are in large measure responsible for conditions that led up to the death of Stanley Ross. We wish to place ourselves on record as favoring some legislation that would prevent children being on the streets or in public places after dark."

The Chinaman, Lio Bing, was taken to the police hospital at Regina in charge of Dr. McDonald and the mounted police. He is very weak but is expected to recover. The funeral of the murdered boy took place today from the family residence to the Sintaluta cemetery and was followed by a large number of sorrowing friends, the public school being dismissed that his schoolmates might attend.

TWO WOMEN KILLED

Kenora, Oct. 31.—A railway accident yesterday at Dinoor between here and Fort William in which two lives were lost and 15 injured. The injured were brought into town. Your representative ascertained from a passenger that it happened while the second section of No. 1 full of immigrants was waiting at Dinoor station, the engine taking water. The train was a long one consisting of 18 cars. In the meantime a fast freight came along and telescoped the last five, or six cars which caught fire resulting in the death of two women who were burned beyond recognition. Their names cannot be ascertained as Immigration Agent Charlebois is seriously hurt. Three Norwegian women were also seriously injured, while 12 received various injuries. The injured were taken to the Jubilee hospital. Men, women and children were hurried about when the collision took place and it is miraculous how many escaped for it was dark. Not able to open the windows of the upturned cars the male passengers removed the glass and dragged the women and children through. It is said that the engineer on the freight disregarded a flagman. Another story says that he was asleep in the cab.

STRATHCONA NEWS

Interesting Items from Edmonton's Sister Town

Strathcona, Oct. 28.—Thos. Stewart's threshing outfit came in town last night as he has finished for the season. He reports a good "run."

John Blow and N. Desruisseau are at the Royal. They have been up the river about 75 miles, washing gold from the sands of the Saskatchewan. Judging from the numerous nuggets they are displaying their fate employment for the last few weeks has been profitable.

Premier Rutherford returned to town last night.

Mrs. Morris, Annable and Vanseien, who have been away in the neighborhood of Beaver Hills, came into town last night. They drove over a large section of country, shooting much small game and prospecting with the object of locating farms. They report that there is much suitable land in this locality yet open for settlement. They have selected two farms and purpose going out early next week to locate and pass the winter in hunting and trapping.

Murdie McKenzie, who lately arrived from the north, has just crossed the lot and is erecting a small frame house to be occupied by himself during his stay in town.

Joseph Woodruff, who came here about a month ago from Hazersville, Ont., has purchased a tent and is now camped out in town, taking the outdoor treatment for lung trouble.

J. J. Mellon, of the Royal, is now occupying his new house on Duggan street. The house is 28 by 36 feet having two stories and attic. It has six rooms, both down stairs and four bed rooms, both down and up stairs, making twelve rooms in all. Massive finish throughout, with B. C. cedar.

SUDDEN DEATH

Harvey R. Walter, a prosperous farmer, living eight miles north of the city, died on Friday night of apoplexy under peculiarly distressing circumstances.

Mr. Walter was in the city on Wednesday in splendid health, on Thursday the threshers started to thresh his crop and he assisted them. On Friday, helped by his brother-in-law, he was unloading the newly threshed grain from bags in a wagon to bins in the granary. The bags were lifted from the wagon and slid along a plank to the bin. Mr. Walter was lifting a bag when he suddenly raised both hands to his forehead, uttering an exclamation. His brother-in-law turned just in time to see him fall. Seeing he was seriously ill, assistance was procured, but before the house was reached, about 75 yards distant, he had expired.

Mr. Walter is survived by a widow, their only child, having died three months ago. The funeral was held on Sunday to the Namao cemetery.

VERMILLION'S PROSPECTS

Winnipeg Free Press. The following letter has been received from a correspondent at Vermilion on the main line of the C.N.R.

The town of Vermilion is destined to become one of the ten large towns of Western Canada. The lots have been on the market, only three weeks and at the present time there are at least fifty buildings in course of construction. This town is situated in the famous Vermilion country and is one of the main divisional points on the C.N.R. There are splendid opportunities here for enterprising business men and now that the railway will have a passenger train here three times weekly, commencing on the 22nd of this month, the best of accommodation is expected.

There is no doubt but that this town will surpass the rapid growth of North Battleford for the amount of building so far is wonderful. The sound of hammers can be heard day and night, and men with capital are coming in on every train. The business sites at this writing are as follows: Three hotels, two bank sites, two general stores, one butcher shop, drug store, three restaurants, wholesale liquor store, four lumber yards, flour and feed store, Methodist and Presbyterian churches and two libraries. The townsite is by far the prettiest of the entire system of the C.N.R. having excellent drainage, good spring water, and very fine residential property, overlooking the beautiful Vermilion valley. The town is bound to be a large distributing point for this Western country."

FIVE MEN KILLED
Pittsburg, Pa., Oct. 30.—Five officials of the Westmoreland Mine Co. gave up their lives in an endeavor to ascertain if the Hazelkirk mine which caught fire two weeks ago was still burning. Being responsible they thought it was their duty to make a test. It was fatal. They are men with large families.

NEW MANITOBA CHURCHES
Winnipeg, Man., Oct. 30.—The Anglican Church has erected a new three-story church in Manitoba next month as follows: Ninette Nov. 5th, Ninette Nov. 6th, Elva Nov. 19. He consecrates Virgin church on Nov. 2. The House of Bishops sits in Winnipeg on Nov. 13.

HORSES KILLED BY TRAIN

THE LAND QUESTION

A Vigorous and Consistent Immigration Policy can't Possible When Carried on by Same Authority as Controls the Land

Mr. Sifton said: (see page 3095-96, Ottawa Debates)

"Upon the question of the lands which have been discussed at some length, I have very clear and positive feelings. I regard the question of a successful settlement policy—and my opinion is not changed by the fact that this policy may now require to be carried on under somebody else's supervision—I regard the question of a successful settlement policy—and my idea as perhaps one of the most important, if not the most important, of all subjects with which we have to deal. For the last two or three years especially, we have seen the effect of the small beginnings of the success of settling vacant lands of the West upon the general prosperity of Canada, and I think every serious minded man will admit that under no possible circumstance should this parliament be justified in taking any step which would imperil in the slightest degree the success of the immigration policy which we have been carrying on; and which the Government proposes to carry on in the future. That is a thing which demands the most careful thought and consideration at the hands of this Parliament. It was suggested by the leader of the Opposition, and has been suggested by others who take the opposite view, that the handing over of the public lands of the Territories to the Provincial Government would not seriously interfere with the conduct of immigration. Well, Mr. Speaker, I have had on my shoulders the duty of carrying on a policy of immigration, and of harmonizing the operations of the Lands department of the Government and of the immigration department for the last eight years and it taxes the efforts of the department to the utmost, when both the land department and the immigration branch are in the same hands and under the same control, to avoid the difficulties which constantly present themselves in the administration of this work. It would be difficult satisfactorily to carry on that work even if we had the land department in another branch of the same Government; it would be embarrassing and difficult to an extent that few men appreciate who have not had the duty of actually carrying on the business. But if you hand over the land to three Provincial Governments—because you would have to treat Manitoba in the same way as you are treating the Territories—if you hand over the land to three separate Provincial Governments, each with its own ideas of policy, each with its own Minister of Crown Lands, and if the Federal Government has to deal with three Provincial Governments, every man who knows anything about doing business between Government's must know that it would be absolutely impossible that satisfactory results could be achieved. It is not necessary to suggest that the Provincial Governments would do anything that is wrong; it is not necessary to suggest that they would be improvident, that they do not know how to carry on business as well as we do. The people of the West are just as capable as the people in any other part of the Dominion, they are extremely capable, and when they achieve provincial status, if these lands were handed over to them, they would do precisely what people in the other provinces would do, they would administer this land just as they saw fit and in accordance with their own ideas of policy. The result would be that you would have three Governments to deal with, each with its own idea of policy, each with its Minister of Crown Lands, and possibly no two of them with the same ideas as to the policy that should be carried out in respect to this subject. It might be, Mr. Speaker, and probably would be that instead of administering these lands for the purpose of settlement they would administer them for the purpose of revenue, and I do not know that we could blame them very much if they did so. But if they did that the result would be that the settlement policy of the country would stop."

It would be quite as impossible to give these lands to the Provinces with a limitation that they should carry on a homestead policy. A policy would have to be carried on by Provincial officers. And, moreover, the very day you gave these lands to the provinces with any limitation whatever, you would find an agitation, and you would have that question on the floor of the House at every session of Parliament. So Mr. Speaker, and also upon the first day of school there is another way to say to the members of this House, does I think should command their undivided judgment of both sides, I would like that nothing would be done which would more certainly impede the successful settlement policy which is now in existence in the prairie provinces than under any circumstances to allow the public lands of the prairie provinces to pass from the control of the Dominion Government."

EDMONTON BULLETIN, TUESDAY, OCTOBER 31, 1905.

PAGE SEVEN

SOME MEN ARE RICH

In Edmonton today because they had foresight enough two or three years ago to buy property which, as the city grew, advanced rapidly in value. Some of them were laughed at—people called them fools—but two short years has abundantly proved the correctness of their judgment, and they are reaping the reward of their faith in the city.

The growth of the city during the past two or three years has been great, but compared with the growth of the next two or three years it will be as the dawn of day, compared with the splendor of the noon-day sun.

You have the opportunity now to do as some few did in the past.

The Great Estate

is now on the market at prices which will look small—very small. Indeed—in the very near future. The city is growing westward rapidly and ere long this estate will be the choice residential part. No part of this estate is more than two miles from the very centre of Edmonton today—in five years it will be in the very heart of the city.

There are 500 lots—50 x 150 ft.—to be sold on easy terms—one-third cash, and the balance in six and twelve months, without interest. There will be no tax to pay for over a year.

History Repeats Itself

You can buy from two to ten lots for the same money which it will take to purchase one in the present settled part of the city. Those who sow a few dollars now will reap a rich harvest in the not-far-distant future. Don't miss the chance now—TODAY—and have to say in a year: "What a fool I was that I didn't purchase a year ago." Somebody is going to make money on this estate—why not have a share of it?

Hon. F. Oliver and Hon. C. W. Cross will address a public meeting in the Thistle Rink on Monday, November 6. Front seats will be reserved for ladies and their escorts and a large gathering is expected. Numerous stoves will be placed in the building to ensure the comfort of all.

At a meeting held in the assembly room of Alberta College last evening to form a Y.M.C.A., the following were elected to the board of directors, conditionally upon their acceptance: Messrs. Turnbull, Riddell, Ewing, Pardee, Hull, Aldridge, Entwistle, Gilbert, Dr. Smith and Mayor MacKenzie. It was decided to secure rooms for temporary quarters. Dr. Smith and W. M. Parsons were appointed a committee to secure rooms and the consent of the directors as far as possible today and report at a meeting in the assembly room of the college tonight.

A runaway that might easily have resulted fatally occurred on Namao avenue at the corner of Clark street about 1:30 today. Miss Christina Murdoch and Mr. Blatchford were driving a team of horses attached to a buggy, the lines broke and the restive team ran away along Fifth street, they crossed Namao and continued straight ahead over the sidewalk across a vacant lot on the corner of Clark street. When going over the board walk Miss Murdoch and Mr. Blatchford were thrown out, Miss Murdoch's head striking on the dashboard, her body going between the wheel and the box. She received a scalp wound and was carried into a home of J. J. Rouse. Dr. Forin was called and found her suffering from concussion of the brain and two scalp wounds. No serious results are looked for and she was taken home on regaining consciousness. Mr. Blatchford was unharmed. The team continued their flight, but would likely be caught before going far.

Regina Leader: Under the supervision of Mr. John Tait, of the C.P.R. telephone, the office of Superintendent Brownlee in Moose Jaw, has been placed in telegraphic communication with that of Strathmuster Wells of this city. The installation is quite a novelty, so far as Western Canada is concerned, as the existing C.P.R. telegraph wires have been used instead of a usually the case, a separate wire. The experiment has proved to be in every way a great success, and the fact that telegraph messages are being sent along the wires, and that it is being used for telephone purposes appears to in no way interfere with the efficient working of the system. The possibilities opened up are obvious. With practically incurring any expense so far as wires are concerned, the C.P.R. by making use of

their network of telegraph wires could in very short space of time initiate a vast system of long-distance telephones at a cost so trifling that the companies could hardly compete with them. Whether however the company will decide to do so is a question that is yet to be answered. For the present they will merely use the idea for the purpose of increasing the efficiency of their own service.

She received a scalp wound and was carried into a home of J. J. Rouse. Dr. Forin was called and found her suffering from concussion of the brain and two scalp wounds. No serious results are looked for and she was taken home on regaining consciousness. Mr. Blatchford was unharmed. The team continued their flight, but would likely be caught before going far.

Regina Leader: Under the super-

vision of Mr. John Tait, of the C.P.R. telephone, the office of Superintend-

ent Brownlee in Moose Jaw, has been

placed in telegraphic communica-

tion with that of Strathmuster Wells

of this city. The installation is quite a

novelty, so far as Western Canada is

concerned, as the existing

C.P.R. telegraph wires have been used

instead of a usually the case, a

separate wire. The experiment has

proved to be in every way a great

success, and the fact that telegraph

messages are being sent along the

wires, and that it is being used for

telephone purposes appears

to in no way interfere with the ef-

ficient working of the system.

The possibilities opened up are ob-

vious. Without specifically incurring

any expense so far as wires are con-

cerned, the C.P.R. by making use of

their network of telegraph wires

could in very short space of time

initiate a vast system of long-dis-

tance telephones at a cost so trifling

that the companies could hardly

compete with them. Whether how-

ever the company will decide to do

so is a question that is yet to be an-

solved. For the present they will

merely use the idea for the purpose

of increasing the efficiency of their

own service.
